

Our puppies are sold as PETS ONLY with a spay/neuter contract. Females must be spayed after their first heat cycle and males should be neutered at 6 months of age. Documentation must be sent to us verifying the procedure. In purchasing a puppy from us, you agree to enter a spay/neuter contract agreement. If your vet suggests something different, please get it in writing and send it to us as soon as possible.

Why spay/neuter: Fixing your dog prevents pregnancy and the birth of unwanted puppies. It avoids the need to restrain the dog during estrus (heat cycle). It keeps both sexes from roaming away from your house in search of a mate. It reduces the tendency of male dogs to urinate in the house. Additionally, it avoids reproductive-related problems such as tumors, pyometra, false pregnancy, prostate infections, and reduces the risk of developing reproductive related cancers.

It is very important for breeding dogs to have a documented history of many generations of their ancestor's health, temperament, and confirmation. We as breeders hand select which offspring we will use to breed based on the breed standards and temperaments. Breeding stock must be of appropriate age/weight, health, temperament and promote the same in their future offspring. In order to guarantee the success of the breed, it is crucial that only the best adult dogs be bred, resulting in exceptional puppies that will carry on the breed standards.

We have put many years of work into the history, health and temperaments of our dogs and offspring. It is important for breeders to protect the integrity of their dogs/offspring. We do not promote "back yard breeding". This is where someone just buys a dog and breeds it to "have a litter" or to obtain financial gain. Any breeder will tell you that many, many years of hard work are placed in breeding dogs, and that it is not for everyone. Therefore, most reputable breeders limit the registration of offspring to ensure the dogs are well cared for and that the breeding is done by the breeders and not the back yard people who do not know how to do so responsibly. We do this so we can keep our lines clean and free of health issues, and to ensure that our offspring are well cared for.

Spay/Neuter Agreement

Permanent ownership of this dog is contingent upon your compliance with this Addendum. Proof of the spay/neuter must be received by THE BREEDER within fourteen (14) days after the surgery. In the event that the dog's health does not allow this agreement to be honored, BREEDER must be provided with a statement from your veterinarian that this dog is not yet in physical or emotional condition for surgery. Based upon the veterinarian's evaluation of this dog, the PURCHASER will contact the veterinarian and establish the earliest date that the procedure can be performed.

PURCHASER will notify the BREEDER of this amendment in writing, at which time all other conditions of this agreement will apply and be enforced. This is the responsibility of the PURCHASER, not the veterinarian, to ensure that BREEDER has received verification that the surgery has been performed. A copy of the spay/neuter certificate along with the veterinarian's phone number to follow up about the procedure is required.

Failure to comply with this agreement by the date below, unless otherwise agreed to in writing, will be considered a breach of the contract, and PURCHASER will transport this dog back to BREEDER and will not be entitled to a refund. In the case of the puppy's demise on or before the above listed date, a written statement from your veterinarian must be sent to BREEDER stating that the puppy has indeed passed away, and the cause of death. This is an unfortunate step but necessary.

Should a breeding happen, the PURCHASER will be fined \$1,000.

By my signature below, I agree to have this dog spayed/neutered after first heat cycle for females or 6 months of age for males. I understand that this spay/neuter agreement is an agreement that this dog will not produce a litter of puppies either as purposely bred or by accidental breeding. I also agree that should puppy not be spayed/neutered that I will return said puppy back to the seller/breeder with no refund.
